RE: Honor Roll

We are attempting to gather the “all-time” Top-10 best performances by New Mexico high school track and field athletes. It is our intention to create an “Honor Roll” which hopefully we can constantly update.

Many of these marks obviously were not set at the state track meet. We all know that. All times performances will appear as “hand timed” and those FAT marks to be converted will be done so with the .3 standard.

Some performances may be questionable. We want credible performances that you know are legitimate. A good place to begin is your school record board. We do not want a list of your records...only those performances that you feel may be one of the best ever in the state. A good guideline would be that best “state record” performances (regardless of classification). If you have a mark that is as good or better, we’d like to know.

Your marks will be posted for the scrutiny of everyone to see. Obviously, this list is going to evolve as coaches become aware of it and they see the performances and make additions.

Along with the performance, we will need the head coach (at the time) and the event coach if applicable and know. (We all know that many marks were coached by event/assistant coaches and they deserve the recognition as well.)

Please provide the following:

Event:
Athlete:
School:
Performance:
Year:
Location:
